

QUINAULT RIVER GENERAL FISHING REGULATIONS

I. STATEMENT OF INTENT

The Regulations are designed to protect the fish, wildlife and other natural resources under the jurisdiction of the Quinault Indian Nation and under the regulation of the Quinault River Committee ("Committee"). The Committee recognizes that the Quinault River is an ever changing resource with fluctuations in river levels and fish runs. Each season the Committee intends to reevaluate the course of the river and the fish run to determine the proper placement of fishing grounds and channel widths.

II. AUTHORITY

These regulations are adopted pursuant to Quinault Tribal Code ("Q.T.C.") Title 51, specifically Q.T.C. 51.03 and 51.17 et seq. or as thereafter amended.

III. APPLICATION

The regulations in this Section shall apply to all non-guided commercial and subsistence fishing on the Quinault River.

IV. DEFINITIONS

The definitions in Quinault Tribal Code 51 are hereby incorporated by reference.

1. "Abandoned" shall include but not be limited to mean a fishing ground, that has not been used, fished from, reported to have been fished from, improved upon, marked, launched from, or accessed within the past thirty-six (36) months or one in which the ground owner has died. No ground shall be deemed forfeited by a member who participates in the Off-Reservation fishery so long as the member fishes the location at least once during the past thirty-six (36) months;
2. "Application" shall mean the process of drafting and submitting a formal application on a form approved by the Committee;
3. "The "Channel" shall be identified by the Quinault River Committee at least annually. Unless otherwise defined by Regulation, the Channel shall mean the seventy-five (75) foot section of the river with its center point measuring from the deepest spot in the river between grounds 4 and 6; the one hundred and twenty-five (125) foot section of the river with its center point measuring from the deepest spot in the river between grounds 7 and 8 through grounds 37 and 38; the one hundred and fifty (150) foot section of the river with its center point measuring from the deepest spot in the river between grounds 39 and 40 through grounds 43 and 44, the one hundred and seventy-five (175) foot section of the river with its center point measuring from the deepest spot in the river between grounds 45 and 46; and the one hundred (100) foot section of the river with its center point measuring from the deepest spot in the river for the remainder of the fishing grounds;

In cases where the river flows through two or more separate courses and the water courses are

less than one hundred feet in overall widths, the "channel" shall mean one-half of the overall width of each river course with its center point measuring from the deepest spot in the river;

4. "Committee" shall mean the Quinault River Committee;
5. "Gear" shall mean any tools used to catch fish, such as rod and reel, hook and line, nets, traps, spears and baits;
6. "Ground assignee" shall mean the enrolled Quinault member(s) being granted a ground assignment by the Quinault River Committee or such other bodies as previously officially designated by the Quinault Indian Nation;
7. "High water mark" shall mean the level of flow, or river discharge, at which the Committee determines that fishing cannot reasonably occur at the assigned fishing grounds and the Committee may authorize the use of high water set locations;
8. "Mouth" shall mean the base level of the river or the lowest point to which it can flow;
9. "Resident" shall mean any person who lives within the boundaries of Grays Harbor or Jefferson County .

V. MASTER ROSTER AND FISHING GROUNDS, APPLICATION, ELIGIBILITY, ETC.

1. Master Roster

The Quinault River Committee or its designee shall compile and publish a Master Roster, identifying each fishing location, each person or person(s) assigned said grounds whether permanent or temporary, each assistant and/or helper permitted to assist at a given ground, each open fishing location, and each fishing guide. Said Master Roster shall be available to any Quinault member upon request.

2. Master Roster Eligibility

In order to be assigned a fishing ground on the Quinault River, a person must be a resident of Grays Harbor or Jefferson County and a member of the Quinault Indian Nation. Fishing grounds on the Quinault River shall not be acquired, operated, or controlled by a Quinault member unless he or she owns, or has access to, both a net and a boat for his or her use.

3. Maximum Number of Fishing Grounds

The following shall apply to all fishing grounds upon the Quinault River:

No person shall be assigned a fishing ground if the person currently is assigned a fishing ground on the Quinault River or any river outside the boundaries of the Quinault Indian Reservation and is

currently fishing from the off-reservation ground.

In the event the person currently is assigned a ground on the Quinault River and has a ground on a river outside the boundaries of the Quinault Indian Reservation, the person shall not commercially fish from the ground on the Quinault River during the same season in which the person fishes from the ground on the river outside the boundaries of the Quinault Indian Reservation.

In the event that the person has been assigned multiple grounds on the Quinault River, the person shall relinquish so many grounds as is necessary so as to not violate this regulation. If the person fails to so relinquish said grounds, the Committee shall forfeit the person's Quinault River ground and re-assign the ground in accordance with this Regulation.

Any change in fishing ground assignments must receive the consent and approval of the Committee in accordance with Q.T.C. Title 51, and its implementing regulations.

4. Master Roster Determination

In order to be considered for the Quinault River Master Roster, a person must apply by submitting a formal application to the Committee. A member shall be placed on the Master Roster by majority vote of the Committee. The fisherman presently assigned a fishing ground upon the Quinault River shall continue to be assigned said grounds, or grandfathered in, and shall be placed upon the Master Roster for said grounds without the need for a formal application.

5. Temporary Master Roster Determination

Where a quorum of the Committee is not available at a meeting, the Chairperson of the Committee may give conditional approval to be placed upon the Master Roster until the next Committee meeting at which a quorum is present and a majority vote may be had.

6. Assignment of Fishing Grounds

All applicants for fishing ground assignments upon the Quinault River shall present their applications to the Committee. The Committee shall consider all applications for fishing ground assignments and make ground assignments when it is proper to do so.

7. Notice and Assignment of Abandoned or Forfeited Fishing Grounds

In the event that a fishing ground is open for assignment, abandoned or forfeited, the Committee shall assign the fishing grounds to the last ground assignee's designee, if the ground assignee left no designee, then to the eldest living lineal descendent of the last ground assignee who applies. The Committee shall attempt to notify all known living descendents of the ground assignee and allow those persons at least thirty (30) days to apply for the ground before re-assigning the ground to a non-lineal descendent.

If, after the expiration of the thirty (30) days, no interested lineal descendent applies for the ground, the Committee shall notify the public of the open ground for no less than thirty (30) days prior to reassigning the ground. The Committee may make attempts to publish notice in the Nugguam or other local publication and/or any other method which is intended to give all

interested parties the opportunity to apply.

8. Appeal of Fishing Ground Assignments

In the event an applicant feels aggrieved with the decision of the Committee, the applicant shall have the right to appeal as provided in Title 51 of the Q.T.C. or in accordance with its implementing regulations.

9. Cancellation of Fishing Grounds

The Quinault River Committee shall make recommendations to the Business Committee to cancel a fishing ground upon the Quinault River. The Business Committee, subject only to final appeal to the General Council, shall have the sole authority to cancel a fishing ground.

10. Failure to Obtain Approval for Change of Fishing Grounds

It shall be a violation for any person to change fishing ground(s) without the consent and approval of the Committee.

VI. INDIVIDUAL FISHING ELIGIBILITY REGULATIONS

1. Valid Identification Required

All persons fishing on the Quinault River shall possess a valid tribal membership card and/or other officially sanctioned license or permit.

2. Assistants and Helpers

Except for guided fishing, only enrolled Quinault members, their legally recognized spouses and their children may assist a Quinault member with fishing on the Quinault River when the member entitled and permitted to fish is present..

3. Fish Tickets

All persons shall prepare and report all fish catches, takes, harvests, gatherings, hunts, purchases, sales, or traps to the Director of Quinault Nation Department of Natural Resources or his or her designees(s).

4. Name Must Appear on Master Roster

All authorized assistants and helpers fishing on the Quinault River shall appear on the Master Roster issued by the Committee. The names of all members allowed to fish must be on a Master Roster kept by the Committee Chairman or his or her designee.

5. Fishing Multiple Grounds

It shall be a violation to commercially fish from a person's assigned ground on the Quinault River during the same fishing season as he or she fishes from a ground on any river outside the boundaries of the Quinault Indian Reservation.

VII. MINIMUM DISTANCE, GEAR, AND OTHER RESTRICTIONS

Except for guided fishing, unless otherwise approved in writing by the Commission, the following regulations shall apply:

1. Identification of and Minimum Distance between Fishing Grounds

Fishing grounds shall be on both sides of the Quinault River, 255 feet apart, and the grounds on one side shall be directly opposite the grounds on the other side..

Further, to the extent that changes in the course or the depth of the River have changed the grounds, the Committee shall set stakes into each ground so affected so as to validly identify the proper alignment and width of the fishing location.

a. Fishing grounds shall be numbered and identified by the Committee and/or its designees annually. Initial grounds shall be set in accordance to the past traditions and practice.

b. The Committee shall have sole discretion to locate each fishing ground.

c. It shall be a violation for any person to fish without maintaining a minimum distance of two hundred and fifty-five (255) feet between his or her fishing ground and the next ground upstream.

d. It shall be a violation to set, allow to be set, or otherwise permit a net to float or otherwise extend more than one hundred feet downstream from the short peg.

2. Fishing Channel Prohibited

Fishing is not permitted in the channel. Tribal Enforcement Officers may remove any obstruction violating this regulation after once warning the ground assignee.

3. Obstructions in Channel Prohibited

The channel shall be kept free from stakes, nets, leads, or other obstructions of any kind whatsoever at all times.

4. Fishing Mouth Prohibited

No fishing from the mouth of the river.

5. Frightening of Fish Prohibited

It shall be a violation for any person to use a splash rope or any other device(s) to frighten the fish.

6. Gear Removal Required

All persons shall ensure that nets and/or other gear is attended to at least once during a twenty-four (24) hour period.

7. Net Fishing Above Chow-Chow Bluff is Prohibited

No person, Indian or otherwise, shall be allowed to fish in any other manner, except with a hook and line, in or upon the Quinault River at a point above called Chow Chow Bluff.

8. Maximum Length of Nets

Unless otherwise permitted by the Committee in writing, the maximum amount of gear (cross nets, leads, and pockets) that may be used on any ground shall not exceed that listed in the Q.T.C., these Regulations or any other duly enacted Regulation.

It shall be a violation for any person to fish at ground 4-6 using a net exceeding eighteen (18) fathoms in length.

It shall be a violation for any person to fish at ground 7 and 8 using a net exceeding twenty-four (24) fathoms in length.

It shall be a violation for any person to fish at all other grounds using a net exceeding sixty (60) fathoms in length.

For the purpose of this provision, the term "nets" shall include the net, the hooks, the pockets, and the leads.

9. Hooks and Pockets

A hook not exceeding 50 feet in length shall be permissible to those fishermen who have no pocket on their web; provided, that in no case shall the hook extend into the channel; further provided, that a hook and pocket shall be allowed on grounds on the South Side of the River.

10. Stakes and Tail stakes Required

Stakes and tail stakes are required at all fishing grounds except those otherwise approved by the Committee.

11. Non Retention of Green Sturgeon (*Acipenser medirostris*)

No person shall take, retain, or otherwise keep a Green Sturgeon. All Green Sturgeon must be released immediately when encountered.

VIII. ENFORCEMENT

1. Removal of gear by Tribal Enforcement Officers

Quinault Indian Nation Tribal Enforcement Officers are specifically authorized to remove any obstruction, including any type of fishing gear violating this regulation, any provision of the Quinault Tribal Code, or any other Quinault River Regulation.

2. Enforcement of Regulations

These Regulations shall be enforced in accordance with Q.T.C. Title 51 or as hereafter amended.

3. Suspension of Privileges

The Committee, by majority vote, may suspend a person's permission to engage in activity governed by Q.T.C. Title 51 in accordance with Q.T.C. Title 51 when the person has been found to have committed a violation of Q.T.C. Title 51 by the tribal court or has reached a settlement in lieu of litigation.

4. Hearings

Initial hearings regarding determinations for assignment of fishing grounds before the Committee shall be made by an aggrieved party filing a written request to appeal an initial Committee action with the Commission Secretary within thirty (30) days of the Committee's action.

For purposes of computation of the thirty (30) days, the "initial Committee action" shall mean (1) when the aggrieved party received notice of the Committee's action or (2) when the aggrieved party became subjected to an adverse decision by the Committee (such as denial of an application), or whichever occurs first.

a. Hearing Rules

The Committee may enact procedural rules as necessary in order to conduct hearings in a fair and orderly manner. In the absence of such rules, the Committee shall give the aggrieved party adequate written notice of the hearing date, time and place, the opportunity to be heard and to present evidence in his or her own behalf in regards to the Committee's decision and/or action.

b. Findings

Following any hearing, the Committee shall render a written decision and transmit the same to all interested parties.

c. Conduct

In the conduct of any hearing, each Committee member shall have the power to administer oaths and affirmation, and the Committee shall have the power to secure by its subpoena both the attendance and testimony of witnesses and the production of books and evidence relevant to the hearings.

d. Appeal of Committee Suspensions, Revocations, and Forfeitures

Any person aggrieved by a final decision of the Committee may appeal said decision to the Quinault Tribal Court by filing an Appeal in accordance with the Quinault Tribal Code within sixty (60) days of said decision.

VIII. MISCELLANEOUS

1. Savings Clause

Should any paragraph, subparagraph, clause, sentence, or phrase of these Regulations be declared

invalid, or be in conflict with the Q.T.C., such decision shall not affect the validity of the remaining portions of these Regulations, and those remaining portions shall remain in full force and effect and to this end, provisions of these Regulations are declared severable.

Posting of Quinault River General Regulation Amendment for Review and Comment

The Quinault River Fish Committee on 10/3/2012 voted to change part of Provision IV. Definitions under section 3. "The Channel" regarding grounds 39 and 40 to grounds 43 and 44. Based on a stipulation made during that meeting prior to that vote, and subsequent committee action on 10/18 that provision was revised again to be posted for 10 days for comment and review but will now be in effect as now revised.

The regulation adopted in 2009, in section 3, where language would be changed (**in bold**) states:

3. The "Channel" shall be identified by the Quinault River Committee at least annually. Unless otherwise defined by Regulation, the Channel shall mean the seventy-five (75) foot section of the river with its center point measuring from the deepest spot in the river between grounds 4 and 6; the one hundred and twenty-five (125) foot section of the river with its center point measuring from the deepest spot in the river between grounds 7 and 8 through grounds 37 and 38, **the one hundred and fifty (150) foot section of the river with its center point measuring from the deepest spot in the river between grounds 39 and 40 through grounds 43 and 44**, the one hundred and seventy-five (175) foot section of the river with its center point measuring from the deepest spot in the river between grounds 45 and 46; and the one hundred (100) foot section of the river with its center point measuring from the deepest spot in the river for the remainder of the fishing grounds;

The revised language adopted by the committee states:

3. The "Channel" shall be identified by the Quinault River Committee at least annually. Unless otherwise defined by Regulation, the Channel shall mean the seventy-five (75) foot section of the river

with its center point measuring from the deepest spot in the river between grounds 4 and 6: the one hundred and twenty-five (125) foot section of the river with its center point measuring from the deepest spot in the river between grounds 7 and 8 **through grounds 43 and 44, , where the extent of ground 43 will now be measured 155 feet from its reference point (formerly measured at 170 feet)**, the one hundred and seventy-five (175) foot section of the river with its center point measuring from the deepest spot in the river between grounds 45 and 46; and the one hundred (100) foot section of the river with its center point measuring from the deepest spot in the river for the remainder of the fishing grounds;

Quinault River General Regulation Amendment

TO: Quinault Tribal Members
Quinault Fisheries Enforcement

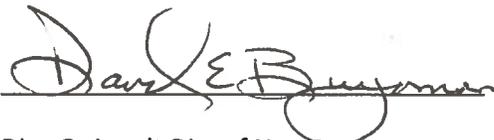

FROM: Quinault River Fish Committee

DATE: Oct. 18, 2012

Subject: Quinault River General Regulation Amendment 5—IV DEFINITIONS under section 3

Revised Definition of Channel was originally adopted on 10/3/2012 and posted taking effect on 10/05/2012, and is now revised on 10/18/2012 to be posted for 10 days for comment and review while it will be in effect as now revised.

3. The "Channel" shall be identified by the Quinault River Committee at least annually. Unless otherwise defined by Regulation, the Channel shall mean the seventy-five (75) foot section of the river with its center point measuring from the deepest spot in the river between grounds 4 and 6; the one hundred and twenty-five (125) foot section of the river with its center point measuring from the deepest spot in the river between grounds 7 and 8 **through grounds 43 and 44, where the extent of ground 43 will now be measured 155 feet from its reference point (formerly measured at 170 feet)**, the one hundred and seventy-five (175) foot section of the river with its center point measuring from the deepest spot in the river between grounds 45 and 46; and the one hundred (100) foot section of the river with its center point measuring from the deepest spot in the river for the remainder of the fishing grounds;

Quinault River General Regulation Revised Addendum- 01

TO: Quinault Tribal Members
Quinault Fisheries Enforcement
FROM: Quinault River Fish Committee
DATE: January 04, 2016
SUBJECT: Quinault River General Regulation Addendum – HIGH WATER MARK--Reset

This Regulation Replaces the Regulation dated January 11, 2012 that previously set the High Water Mark by action of the Quinault River Fish Committee. The High Water Mark level is now set to what had been set by a previous Quinault Business Committee Resolution in 2007.

The Quinault River High Water Mark is set at **3,500 CFS** as read at the USGS Gauge Station near the mouth of Lake Quinault, and as set by Quinault Business Committee Resolution No. 07-169-86 (March 30, 2007).

The Quinault River as of January 4, 2016 has a flow measured at the USGS station 12039500 which is less than 2,000 CFS. Therefore, the use of High Flow set-net locations is not authorized.

This regulation shall remain set for commercial gill-net fishing until rescinded and/or replaced by subsequent regulation.

Justification: The Quinault Business Committee is authorized to enact any rule or regulation it determines appropriate for carrying out provisions of Title 51. 51.03.030 (g); 51.03.030 (a). The Director, with the concurrence of the Fishery Policy Spokesperson, is authorized to enact emergency regulations when it is determined that immediate action is necessary. 51.04.010 (f).

Quinault River General Regulation Addendum- 02 Seasonal River Smelt Fishing

TO: Quinault Tribal Members
Quinault Fisheries Enforcement
FROM: Quinault River Fish Committee
DATE: June 11, 2010
SUBJECT: General Regulation Addendum—Home use Subsistence Smelt Fishing

The Quinault River will be open to the taking of smelt for personal use for the following periods during the designated seasons each year until this regulation is rescinded or the Current General Fishing Ordinance is replaced. Opening and closing dates are as follows:

Columbia River Smelt within the Winter season:

	<u>Open</u>	<u>Close</u>
Winter season-	December 1	March 31

Winter season gear restrictions: Only dip-net and gill-net with maximum stretch mesh size of 1.5 inches are allowed. Maximum allowed length of gill-net is 15 fathoms. Gill-nets for subsistence smelting are limited to the times in areas where commercial fishing is not occurring, so as not to interfere with the commercial fishery.

Silver Smelt within the Spring to Fall seasons:

	<u>Open</u>	<u>Close</u>
Spring/Summer/Fall	June 1	September 31

Spring/Summer/Fall season gear restrictions: Only dip-net with maximum stretch mesh size of 1.0 inches is permitted.

Harvest limit: 50 pounds per day per person.

AREA: The area covered is the lower Quinault River beginning from the mouth, where the channel enters the surf, but to extend no further upriver than river mile 3.2.

All catches shall be reported to the Quinault Fisheries Division. This fishery and gear restrictions may be revised if unacceptable levels of juvenile or adult salmon and steelhead catches occur.

Smelt harvest activities shall not hinder the river gillnet fisheries. All adult and juvenile salmon and steelhead captured using smelt gear are required to be released immediately.

Only Quinault Tribal members are eligible to participate in this fishery. All other provisions of the General Regulations and Title 51 must be followed. This regulation was adopted by the Quinault River Committee on June 11, 2010.

Quinault River General Regulation Addendum-03 Incidental Sturgeon Catch

TO: Quinault Tribal Members
Quinault Fisheries Enforcement
FROM: Quinault River Fish Committee
DATE: July 27, 2010
SUBJECT: Quinault River Commercial Gillnet Landings – July 27, 2010 until replaced

The Quinault River General Regulation on Incidental Sturgeon Catch, dated July 27, 2010, is added as an addendum to the Quinault River General Regulation. It will remain in effect until altered or replaced by a new general ordinance.

DURING OPEN COMMERCIAL FISHING ON THE QUINAULT RIVER THE FOLLOWING RESTRICTIONS APPLY:

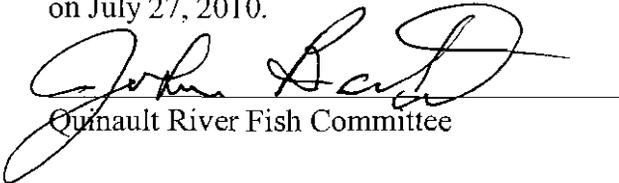

White Sturgeon Size Retention Restriction: Only White Sturgeon greater than 42 inches (as measured with fish laying flat on its side, tip of snout to tip of the tail) may be retained.

All Green Sturgeon must be released immediately when encountered.

White Sturgeon must be measured immediately upon removal from net. The removal, or mutilation, of the head or tail of any sturgeon prior to delivery is prohibited.

Please watch for plastic spaghetti tags located near the top fin of the sturgeon. Report tag number and color, date and location caught, length, and whether the fish was retained or released. The information can be reported to the Quinault Fisheries Division.

Justification: This regulation was discussed and voted on by the Quinault River Fish Committee on July 27, 2010.

Quinault River General Regulation Addendum--04 Sport and Guide Fishing Restrictions

TO: Quinault Tribal Members
Quinault Fisheries Enforcement
FROM: Quinault River Fish Committee
DATE: October 19, 2012
SUBJECT: Quinault River Sport and Guide Hook and Line Fishing Restrictions – for 10 day posting.

- 1) The Quinault River Hook and Line regulation for Guiding and Sport Fishing includes the provision that the sale of fish caught in these fisheries is strictly prohibited.

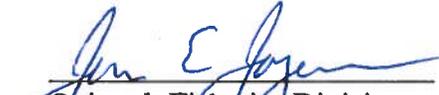

This provision was adopted by a vote of the Quinault River Fish Committee on Sept. 7, 2011.

- 2) The Quinault River Hook and Line regulation for Guiding and Sport Fishing includes the provision guiding On-Reservation in the Quinault River below the area known as the "Ranch" is prohibited.

This provision was confirmed by a vote of the Quinault River Fish Committee on Oct.. 5, 2012.

Mandatory Reporting of Catch: Under Title 51, sections 51.10 Reporting, subsection 51.10.010 (b) and section 51.13 Sport Fishing, Guiding, Boating and Aircraft Access, subsection 51.13.020 (d); the mandatory reporting of all sport caught or guide caught fish by hook and line has been required to be made to the "Director or agency designated by the Business Committee".

Quinault River General Regulation Addendum-05 Use of Hoop Net for Commercial Salmon Fishing

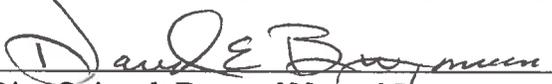

TO: Quinault Tribal Members
Quinault Fisheries Enforcement
FROM: Quinault River Fish Committee
DATE: Oct. 18, 2012
SUBJECT: Quinault River Commercial Fishing with a Hoop Net— Allowed for Flows
greater than **4,500** cfs for Ground holders – for 10 day posting

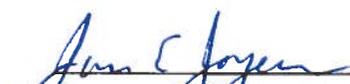

The Quinault River Fish Committee on Oct. 18, 2012 adopted a provision for the General Regulation that allows the use of a Hoop Net for commercial salmon fishing at flows greater than 4,500 cfs, provided the ground holder and their helpers are not fishing set-net gear at the same time.

Hoop Net requirements:

- 1) Can be operated by no more than one person.
- 2) Must be operated by an authorized commercial gill-net fisher.
- 3) The hoop net and its handle cannot be attached to any rigid object or anchored to the shore or river bottom.
- 4) Net bag opening must be fully enclosed by a frame. (*pole nets are prohibited*)
- 5) The net cannot be operated within 255 feet of an operating set net location.
- 6) The commercial gill-net fishery must be open.
- 7) The associated catch must be designated on the commercial catch report with the gear type "Hoop net or Dip-net" identified or reported directly to fisheries, whether sold commercially or as take-home fish.
- 8) The fisher must report their intent and location and duration of fishing effort to fish in this manner to fisheries enforcement prior to beginning their activity in person or by voice message to the Chief of Fisheries Enforcement.

Justification: This provision was passed by the Quinault River Fish Committee on Oct. 17, 2012.
