Do It Yourself Hand Sanitizer

1. Pour 2 parts isopropyl alcohol (or ethanol) into a small bottle 2. Add 1 part aloe vera gel to bottle 3. Close top and shake well until mixed 4. Put a dime sized amount in the palm of your hand 5. Rub liberally on both sides of hands 6. Let dry completely*

*note—hands must be clean and free of dirt, dust or grease before applying hand sanitizer or it won't be effective
