Imagine a Village

Taholah Village Relocation Master Plan Project

IMAGINE A VILLAGE

The Community

- We make the community special; the people, the **Elders**, the **family**.
- We all **know** and **trust** one another. We all come together in times of need.
- We are moving forward in **helping our people**, instead of just judging them.
- My community is also special because we look out for each other's' **kids** and **keep them safe**.
- **Everybody matters or nobody matters**

IMAGINE A VILLAGE

The Vision

- Family **friendly** village where **children are safe**.
- Parks and homes reflecting **cultural awareness** and pride; cedar, salmon, berries, in paintings, poles, canoes and signage.
- The village will be **pedestrian-friendly but auto-accessible**, with safe, lighted, wide sidewalks, and interconnected trails.
- We see an **organic farm** where we produce our own vegetables, fruit, potatoes, corn, and other good food.
- We also see green spaces with plants traditionally used by community members providing a **connection to our heritage and nature**.
